

Le temps des
PÉRISES

FALL WINTER 20/21

**Cette saison plus que jamais, la mode continue de nous enchanter avec un prisme de tendances éclectiques et hautes en couleurs. Bye bye grise mine !
Une chose est sûre : le changement de saison et la possibilité de se lover dans des matières câlines du matin au soir réjouissent les cœurs.
Place à l'automne et à l'audace hivernale.**

STUDIO 54

1977, virée au mythique Studio 54. Voilà d'où vient l'inspiration de cette saison. La femme Le Temps des Cerises se réinvente et joue avec les codes du disco dans des pulls à sequins au touché infiniment doux. Côté imprimés, on retrouve du feuillage dans un vert lumineux savamment twistée sur un plumetis, l'imprimé zèbre sur du satin. Les tops en voile agrémentés de foils apportent une touche de féminité à nos pantalons masculins. Pour des soirées improvisées ou programmées, et même ou vous ne comptiez pas aller. Let's dance !

***This season more than ever, fashion continues to enchant us with a prism of eclectic and colorful trends...
Good bye sour face !
One thing is for sure : the season's change as well as the perspective of curling up in cuddly fabrics from morning till night warms our hearts.
It's time for autumn and winter boldness.***

STUDIO 54

*Road trip to the legendary Studio 54. This is where our inspiration is born from for this season.
The Le Temps des Cerises woman reinvents herself and plays with the Disco fashion codes, comfortably wrapped in sequins pullovers with their extremely soft touch.
As regards prints, we can find bright green leaf cleverly twisted on a plumetis, zebra print on satin. Voile tops embellished with foils bring a touch of femininity to our masculine trousers. For Informal or scheduled evenings or even for the ones you hadn't planned to attend.*

LAZY CHIC

L'hiver 2020 sera contrasté. D'un côté, une certaine idée de l'élégance, hommage au charme discret de la parisienne bourgeoise où l'influence des années 70 dégourdira les looks trop sages. De l'autre, un souffle punk-gothique, dressant le portrait de la femme rebelle qui revendique raffinement et élégance. Les tissus mordorés et cuivrés dominent et donnent le ton de la saison. Sublimant le noir, réveillant le rose... les effets métalliques sont partout. Les carreaux façon tartan jouent la carte du chic et du grunge. Les tenues les plus audacieuses côtoient des pièces à la sensualité plus délicate. Les vestes d'inspiration tailoring donnent de l'allure à la silhouette.

L'imprimé animal s'invite sur des tissus fluides pour une allure instinctivement chic. Un long manteau noir saura le dompter et lui assurer une silhouette désarmante.

Les nuances douces et rosées, les matières souples et coupes décontractées marquent l'allure d'une nouvelle féminité, glamour et nonchalante.

Le noir a le vent en poupe. Associé au rouge, Le Temps Des Cerises assume son style punk-rock. Du noir, du satin, du mordoré... Les pièces de l'hiver se donnent des airs néogothiques aux accents sexy.

LAZY CHIC

*Winter 2020 will be contrasted. On one side, a certain idea of elegance, a tribute to the discreet charm of the Parisian bourgeoisie whose too wise looks have been loosed, influenced by the looks of the 70's.
On the other side, a gothic-punk breath drawing the portrait of the rebel woman claiming sophistication and elegance. Bronze and coppery materials dominate and set the tone for the season. Enhancing black, awakening pink.... Metal effects can be found everywhere.
Tartan style checked fabrics play the card of chic and grunge. Most audacious outfits can be worn along with items showing a more delicate sensuality. Tailoring inspired jackets make the silhouette look good.*

Animal print appears on fluid fabrics for an instinctively chic look. A long black coat will know how to get a handle on it and ensure it a disarming shape.

Soft and pink shades, flexible material and casual cuts shape the silhouette of a new femininity, either glamorous and nonchalant.

*Black is on a roll. Associated with red, Le Temps des Cerises assumes its punk-rock look.
Black, satin, bronze ... The Winter garments just keeps growing neo-Gothic with sexy emphasis.*
